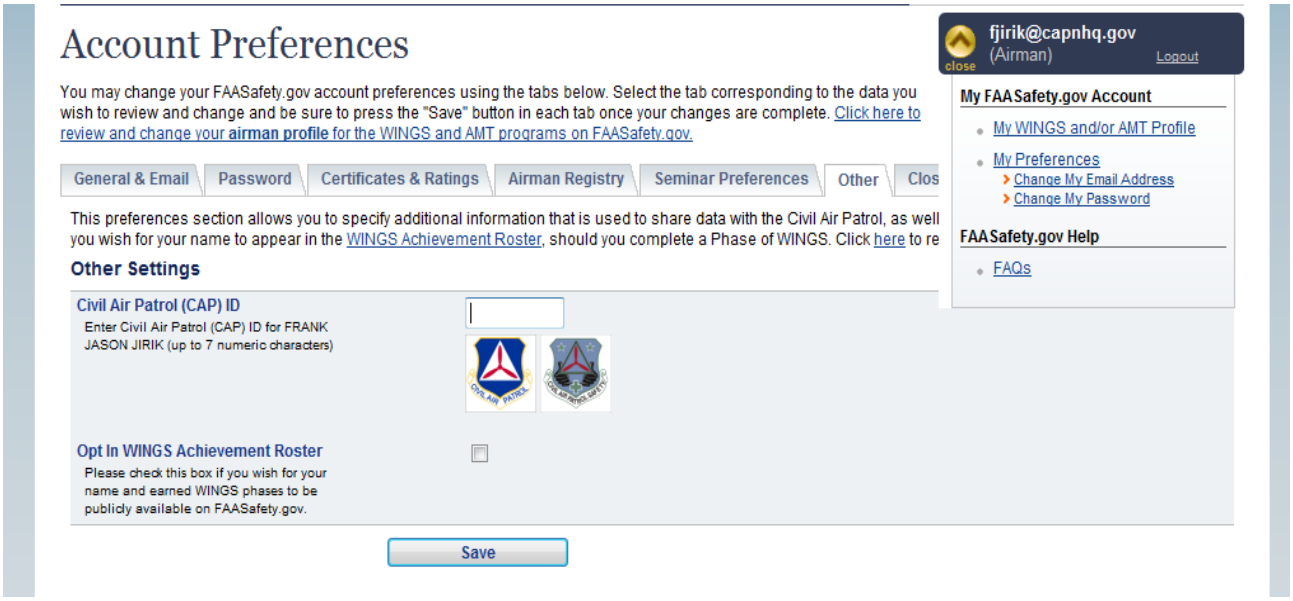
FAA Wings – CAP Safety Education

HOW to link your FAA Wings account to your CAP safety education record

1. Log Into your FAA Wings Profile at www.faasafety.gov

2. Click on your email bar. This will open up a drop down, Click on <u>My Preferences</u>.

3. This opens up your Account Preferences. Click on the OTHER tab.



4. Enter your CAP ID and Click SAVE.

Automatic sharing between the two databases should begin right away.

Please remember to double check your CAP ID. An incorrect number will prevent communications from occurring and will need to be corrected. This is the most common error preventing data-sharing.

Contact safety@capnhq.gov with questions.
